FUNCTIONAL AREAS

- Consulting
- Data Visualization
- Product Analytics
- Market Research

TECHNICAL SKILLS

- Advanced Excel** – Pivots, Charts, Look ups, Dynamic Arrays, Power Query, Power Pivot.
- Python** – Pandas, Numpy, Sklearn, Matplotlib, Seaborn, Scipy.
- SQL** – Data manipulation, Joins, Subqueries, Aggregations, Window functions.
- R Programming** – Data wrangling, Statistical tests, Time series analysis.
- Power BI** – Measure/Matrix, Data Cleaning, Modeling, Visualization, Reports.

WORK EXPERIENCE

Great Manager Institute [Sister: Great Place To Work], Mumbai

- Data Science Trainee**
04/2023 – Present
  - Developed and executed ETL scripts, achieving a 20% improvement in data quality, ensuring robust support for analytics dashboards and driving informed decision-making.
  - Implemented an automated data cleaning pipeline, result in increase in data accuracy and a more reliable dataset.
  - Applied data visualization techniques, leading to the discovery of actionable insights and a 25% improvement in decision-making efficiency.
  - Played a key role in enhancing data quality, contributing to reduction in data errors and reinforcing the organization's commitment to informed decision-making.

Concave Insights, Mumbai

- Research Associate**
12/2022 – 03/2023
  - Prepared and implemented a dynamic Google Form to collect participant data, driving active engagement from 350+ real consumers and ensuring a robust and diverse dataset for comprehensive analysis and insights.
  - Created insightful visualizations to analyze consumer behaviors and preferences effectively. These visual representations facilitated a deeper understanding of consumer trends, enabling data-driven decision-making and strategic planning.

EDUCATION

- Masters, Statistics**
05/2021 – 03/2023
  - R. J College – [9.56/10]
- Bachelors, Statistics**
  - K. J Somaiya College of Science and Commerce – [9.16/10]

ACADEMIC PROJECTS

- Machine Learning: Obesity Level Estimation**
  - Created a supervised ML model for obesity prediction using a UCI dataset (2100+ records, 17 features).
  - Executed the full data science lifecycle, encompassing EDA, preprocessing, model building (Logistic Regression, Decision Tree, Random Forest), and thorough evaluation.
  - Excelled in Decision Tree modeling, showcasing strong classification, preprocessing, and model assessment.

- **Time Series: TATA Motors Sales Prediction**

- Engineered a Time Series model for forecasting Tata Motors' sales using historical data (2001-2022).
- Applied decomposition, stationary transformation, and ARIMA modeling techniques.
- Demonstrated adeptness in extracting insights and forecasting trends from temporal data.

#### EXTRA CURRICULAR ACTIVITIES

- **National Level Gold Medal in Statistics Poster Presentation**

- Earned a National Level Gold Medal in Statistics Poster Presentation at Vishwakarma University, Pune. Recognized for excellence in presenting statistical concepts and insights.

- **Coordinator, IIC-KJSSC (E-Cell):**

- Spearheaded coordination efforts as the IIC-KJSSC Coordinator, orchestrating events centered on startups within the E-Cell.
